AERONAUTICAL INFORMATION CIRCULAR

AIC B14/94 is hereby replaced.

Initial and renewal of instructors rating oral test

It has been noticed that some instructors who come for their initial and renewal oral tests have not come adequately prepared. The object of this AIC is to remind instructors of what is expected of them during the oral test .

Preparation of the board or flip charts must be done well in advance and must include:

1.
 - a) The title
 - b) The aim of the exercise
 - c) Airmanship
 - d) The exercise itself
 - e) Summary to see if the aim of the exercise has been achieved.

2. Visual aids
 - a) A model aircraft
 - b) A pointer
 - c) Any other visual aids that would help the students understanding the exercise more toughly

The prepared lectures should each take between 20 and 40 minutes to deliver. The panel will assess the effectiveness of the candidate's instructional ability, his technical knowledge and ability to answer questions spontaneously.

In the future instructor who does not fulfill these requirements will be asked to resit the oral test at a later date.

K. Kaseke
Acting General Manager
