AERONAUTICAL INFORMATION CIRCULAR

AIC B32/94 is hereby replaced

PA28/140 critical C. of G. utility category

This aircraft may only be spun in the utility category which requires that gross weight may not exceed 1.950 lbs and the center of gravity may not exceed 86.5 inches after datum. Whilst it appears to be easy to conform to the weight limitation it must be noted that fuel in excess of 21 gallons (US) will exceed the C of G limitation.

The National Transportation Service Board recommendation follows fatal accidents involving experienced flight instructors.

K Kaseke
Acting General Manager

This AIC is issued for information guidance and necessary action.
