AERONAUTICAL INFORMATION CIRCULAR

HIV AND AIDS TESTS FOR LICENSING PURPOSES

Pursuant to new medical standards promulgated in ICAO Annex 1 Chapter 6, which became effective November 2006, Civil Aviation Authority of Zimbabwe has made the following requirements for applicants for and holders of

- Class 1
- Class 2
- Class 3

Medical certificates:

- 1.1. 1.1. Applicants/holders for the above certificates shall be tested for human immunodeficiency virus (HIV). Applicants/holders who are seropositive for HIV shall be assessed as unfit unless full investigation provides no evidence of clinical disease.
- 1.2 1.2 Applicants/holders with acquired immunodeficiency syndrome (AIDS) shall be assessed as unfit. Guidance on the assessment of applicants who are seropositive for HIV is contained in ICAO the Document: Manual of Civil Aviation Medicine (DOC 8984).
