## **AERONAUTICAL INFORMATION CIRCULAR**

### **CHECKLIST OF PROCEDURE – SUSPECTED SABOTAGE / BOMB SEARCH**

All operators shall ensure that there is a checklist on board their aircraft of the procedures to be followed when searching for a bomb or in cases of suspected sabotage.

The checklist shall be supported by guidance on the course of action to be taken should a bomb or any suspicious objects be found on board and information on the least-risk bomb location specific to the aeroplane.

All operators shall also establish and maintain a training program which enables crew members to act in the most appropriate manner to minimise the consequences of acts of unlawful interference.
